FISCAL IMPACT STATEMENT

LS 7169

BILL NUMBER: HB 1163

DATE PREPARED: Jan 24, 2002

BILL AMENDED: Jan 23, 2002

SUBJECT: Waiver of Preexisting Conditions.

FISCAL ANALYST: Michael Molnar

PHONE NUMBER: 232-9559

**FUNDS AFFECTED: X GENERAL
DEDICATED
FEDERAL**

IMPACT: State

Summary of Legislation: (Amended) This bill provides that an individual policy of accident and sickness insurance or a group policy of accident and sickness insurance under which a certificate of coverage is issued to an individual member of a non-employer based association or discretionary group may contain a waiver of coverage for a specified condition under certain circumstances. The bill specifies that an offer of coverage under a policy that includes a waiver does not preclude eligibility for an Indiana Comprehensive Health Insurance Association (ICHIA) policy. The bill also requires reporting by insurers to the State Department of Insurance.

Effective Date: July 1, 2002.

Explanation of State Expenditures: (Revised) This bill would allow for individual insurance policies, association group policies, and discretionary group policies that is not employer-based to include a waiver of coverage not exceeding 5 years in length. (Current statute provides for a maximum 12-month exclusion for preexisting conditions.) In addition, the waiver of coverage does not apply to coverage required under state law or for a mental health condition. The impact on the state, if any, is a potential decrease in demand for ICHIA policies. Any impact is likely to be small.

The Department of Insurance is required to create a data reporting form and compile data from insurance producers regarding waivers. This information shall include: the number of policies that the insurer issued with a waiver; a list of specified conditions that the insurer waived; the number of waivers issued for each specified condition; the number of waivers issued categorized by the period of time for which coverage of a specified condition was waived; and the number of applicants who were denied insurance coverage by the insurer because of a specified condition. The Department will report this compiled information to the Senate Insurance Financial Institutions Committee and the House Insurance, Corporations, and Small Business Committee.

Background: ICHIA is the high-risk insurance program offered by the state. ICHIA is funded through premiums paid by individuals obtaining insurance through ICHIA, by assessments to member companies (insurers, health maintenance organizations, and others that provide health insurance or health care coverage in Indiana), and the state General Fund. To be eligible, Indiana residents must show evidence of: (1) denied insurance coverage or an exclusionary rider; (2) one or more of the "presumptive" conditions such as AIDS, cystic fibrosis, or diabetes; (3) insurance coverage under a group, government, or church plan making the applicant eligible under the federal Health Insurance Portability and Accountability Act (HIPAA); or (4) exhausted continuation coverage (e.g., COBRA). Premium rates must be less than or equal to 150% of the average premium charged by the five largest individual market carriers.

The excess of expenses over premium and other revenue is made up by assessments on member insurance carriers. The Employee Retirement Income Security Act (ERISA) prevents assessments against self-funded insurance plans. Members may, in turn, (1) take a credit against Premium Taxes, Gross Income Taxes, Adjusted Gross Income Taxes, Supplemental Corporate Net Income Taxes, or any combination; or (2) include in the rates for premiums charged for their insurance policies amounts sufficient to recoup the assessments. The amount of assessments that are recouped by insurance carriers through tax credits or premium increases is not known at this time. Total expenses for the ICHIA program for CY 2000 were \$53.22 M with premium contributions of \$19.78 M and assessment receipts of \$43 M. Enrollment in the ICHIA program as of June 1, 2000, was 7,662.

Explanation of State Revenues: See *Explanation of State Expenditures*, above, regarding the ICHIA program.
